

Curriculum

Please note: ***Please note that I use British English except for when I am referring to the name of a tool in Capture One which uses US English. Therefore colour and color, grey and gray will be used in this lesson.*

Capture One Magic feature **7 Modules, 110+ videos** (we like to keep them short and actionable for easy reference) and **14+ hrs of viewing content**. Capture One Magic **covers every Tool Tab, Tool, Function, Setup & Customisation** within the context of food photography and a professional workflow.

This is the official curriculum for Capture One Magic. Please note the course is dynamic and is being updated all the time. While the curriculum might change slightly, the direction of the course will always remain the same.
